Amenities Brochure

We live in a world of choices. Everything can be customized to your need. Differentiation is the key for your guests to start the extraordinary journey.

At Natural Rendez-Vous, we have gained our 14-year experience and developed our capability when working with partners around the world, from local boutiques to international brands. The desire to propose our partners endless and surprising possibilities drives us to undertake every challenge from the very concept until the finishing touches.

We want to contribute to your own success by combining our know-how and adaptability to propose the most suitable ideas. Your world will inspire us to offer tailor-made propositions and meet your satisfaction.

One never gets a second chance to make a first impression. To walk away from the ordinary and stand out, the choice is yours.

SCENTS

The sense of smell is proven to have powerful link to emotions and memory. Why not use this strong tool to engrave your image in your guests minds, making their stay memorable? Let them dive into the universe of a scent in our collection or create your exclusive olfactive signature that reflect your identity. Invite them to an unbelievable aromatic journey.

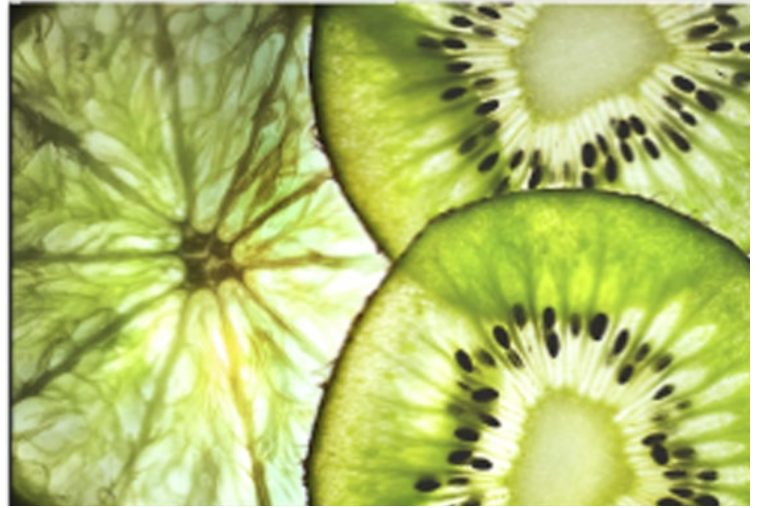

COLORS

Each color tells its own story regardless of culture or country. Colors are more than aesthetic or attention to design, they also have an extreme connection to our mind. Keep the color basic to suggest trust and professionalism or create a symphony to match with your personality.

Choose from our standard color scheme that matches the scent: Relaxing green for a gentle Green Tea scent or bright orange for an Oriental Spice scent.

Or let your imagination fly and choose any shade of any color, from darkest to brightest, from blue to turquoise. And let us do the rest.
